A PROCESS FOR PREPARATION OF INOCULANTS FORMULATION USEFUL FOR THE DEGRADATION OF TECH-HEXACHLOROCYCL OHEXANE IN SOIL

Application 278/DEL/2002 published 2007-02-23, filed 2002-03-21

The present invention relates to a process for the preparation of inoculants formulation useful for the degradation of tech-hexachlorocyclohexane in soil. This invention particularly relates to the development of bacterial inoculants for the elimination of tech-HCH from contaminated soil through biodegradatory
